

REGIONALwellbeing – 2020 survey

Prefer to do the survey online? You can complete it at

www.regionalwellbeing.org.au

Thank you for taking part in this survey – we appreciate your time and effort! This year’s survey is more important than ever, as we find out how the events of 2020 are changing the wellbeing and quality of life of people across Australia.

Note: this survey has two versions

1. Farmer – (this form) for people who are farmers or help manage a farm

2. General community – for everyone except farmers

If you don't have the right form, call us on 1800 981 499 to get the right one.

The survey is long – but some questions won't apply to you so it's not quite as long as it looks!

The start of the survey asks how things are going in general, both in your community and in your life. Many of these questions are ones we ask every year, and it's important we find out how much some have changed in the last year. We then ask about how your community and your household have been affected in the last year by COVID-19, drought, bushfires, floods and storms. If you need assistance or have any questions, call us on **1800 981 499**. The accompanying letter tells you more, including how we ensure your confidentiality.

Part 1: Your community

The first part of the survey asks about the community you live in – in other words, how you find the place you live in. We know the place you live is just one of many things affecting your wellbeing, but it can be a pretty big one, so we ask about it first.

→ What do we mean by 'your community'?

When we say 'your community', we are asking about the place where you *live* - meaning your local government area or the part of it you know best, and the places near your local government area you spend time in. Later parts of the survey ask about other places – but for this section, think about where you live.

At the moment, what things are having a POSITIVE effect on the wellbeing or quality of life of people in your community?
(This can be anything from local events, activities, people or conditions to national and international factors influencing your community)

At the moment, what things are having a NEGATIVE effect on the wellbeing or quality of life of people in your community?

Part 9: Impacts of bushfires

This final part of the survey asks more detailed questions about the impacts of bushfires.

Please answer these questions if you:

- ➔ live in a bushfire affected region (even if the fires didn't have many direct impacts on you)
- ➔ lived in a region affected by smoke from bushfires (even if the bushfires didn't come close)
- ➔ your household was otherwise affected by bushfires (e.g. evacuated during a holiday, involved in firefighting in bushfire areas)

If none of these apply, please go to the last page of the survey.

Earlier we asked you whether a range of things happened due to bushfire. This next set of questions asks about how many days or weeks you experienced some of these things. We're asking because we know some people were at risk from bushfires or smoke for a short period, while others experienced risk for months.

The 2019-20 bushfires were unusual in that in many places people experienced ongoing threats from fire or smoke for several weeks, and in some cases months. How LONG did you experience the following for?	Didn't experience this	Experienced this for...
